

What is Inquiry Learning?

In our 3 to 6 Grades we are guided by an inquiry approach to learning. Inquiry learning is an active thinking process, where students form their own questions, plan and implement ways of finding information and use these experiences to build answers to any questions they may have.

My Student's Progress			
My personal learning goal is:		How am I doing? I will take action to my goal.	
My learning goal set by my teacher is:		How am I doing? I will take action to my goal.
