5/6 INQUIRY

' As part of his research in Sustainability sessions, Byran Harrison learnt that the mining of metals to make mobile phones is destroying the gorillas' environment. He collected used phones and posted them to the Melbourne Zoo. The Zoo will reuse the metals to help minimise the mining and help gorillas.'

When I was doing my inquiry, I was doing the story of computers. My action was for students to donate computer products then have Officeworks come and pick them up. It was a success, on Friday 19th August. Josh from Office works picked all the computers up. Thank-you to all the people that donated to my cause. If you did not get the chance to donate computer products you can still go down to office works to donate them.

Thank-you by Adam Stevens

As part of our Government Inquiry in the 5/6 unit, children are role playing what a member for Parliament would do to be elected. We are using the concept of the new school as a way of making the inquiry more meaningful. Please note, this will not lead to any real actions for 2017.

Vote 1 Duncan Gaw

Duncan Gaw, from the Rainbow Apples Party, wants to help your child to stay healthy, safe and have lots of fun at school.

How is he going to do that, you ask?

- By fighting to keep the fruit bowls so the kids have a healthy program where they can eat fruit while listening to a relaxing book.
- Getting more cameras around the school so kids can feel safe.
- Making sure the play equipment is safe.
- More interesting lunchtime activities for kids to enjoy.

So please encourage your children to vote for Duncan, from the Rainbow Apples Party on Monday, August 29th.
